

Strategic Planning Update – March 2008

Short Term Goals

- Increase infrastructure
- Develop country specific associated supportive care groups
- Study Group development

Long term goals

- Increase international outreach, specifically Africa and Asia
 - Create multi-year scholarships and mentorships
 - Work with developed country organizations for joint symposia
- Develop a grant process to support supportive care development - especially in economically deprived countries/localities
- Develop membership programs and services – members only section on web site, needs assessment for educational needs
- Create Educational products and services
 - New educational content
 - Regional educational events
 - Curriculum in supportive care for specialties
 - Define best practices
 - Advocate for supportive care initiatives – access to care, opioid analgesics, etc.
- Collaborate with other like professional organizations – developing strategic links
