Cancer and the Sensorium
Flavor Perception in People Affected by Cancer

Brought to you by THE MULTINATIONAL ASSOCIATION OF SUPPORTIVE CARE IN CANCER

21 JUNE, 2017
2:00-5:45 PM
Omni Shoreham Hotel
2500 Calvert St NW, Washington, DC 20008

Registration required, spaces are limited

The Multinational Association for Supportive Care in Cancer (MASCC), the world’s premier professional society for supportive cancer care, will hold its 2017 Annual Meeting from June 22 to 24 in Washington, DC, USA. In connection with the meeting, a Patient Seminar, Cancer and the Sensorium, will take place on Wednesday, June 21. The seminar is open to people living with cancer and cancer survivors.

- Learn how cancer and its treatment affect smell and taste.
- Hear from dietitians, chefs, and health professionals.
- Discuss your own smell and taste problems.
- Join a workshop to improve your sense of smell.

2:00 Welcome and Introduction to Cancer and the Sensorium - Dr Anna Boltong
2:10 Why People Experience Flavour Differently and What This Might Mean for Cancer Risk and Recovery - Prof Valerie Duffy, University of Connecticut
2:35 Eating and Enjoying: The Role of the Brain - A/Prof Kathleen Keller, The Pennsylvania State University
3:20 Afternoon Tea
3:45 Patient Stories
4:10 Smell and Flavour Perception: The Possible Impact of Cancer and Cancer Therapies - Dr Beverly Cowart, Monell Chemical Senses Center
4:25 Smell Training - Chris Kelly, Smell Training, UK
5:25 Panel Discussion - Prof Rachel Gibson, The University of South Australia
5:45 Close

Speakers represent hospitals, universities, cancer societies, and Monell Chemical Senses Center.

Attendance is FREE for people affected by cancer and one family member or friend.
